Frequently Asked Questions

Q: What happens if I don't follow the submittal requirements?

Entries that fail to follow submittal requirements will be disqualified. Judges' decisions are final.

Q: Do I really need to show results?

Yes, results count toward your final score. Just as your firm expects you to show ROI for your marketing efforts, so do the judges. Please refer to the Submittal Requirements for tips on how to show measurable results.

Q: The submittal requirements ask for budget and cost information to be included on the clarification statement. Do I have to include this?

Yes; however, if you would like to keep it confidential, clearly note it on the clarification statement. Only the jury panel will be viewing this information and it is important for them to have this information when judging your entry.

Q: What if my entry is too big to fit in a binder?

Award entries can be packaged any way you choose (example: 3-ring binder, spiral bound book, envelope, box, etc.). Any materials that cannot be placed in a binder (e.g., clothing, hard hats, etc.) must be illustrated with a photograph. Inclusion of such materials in their actual form is elective, not mandatory.

Q: Where do I send my entries?

Send your entries to:

Q: Will my materials be returned?

No, materials will not be returned. All entries become the property of SMPS Arizona and may be utilized in future SMPS Arizona Awards promotions or displayed during SMPS Arizona and industry educational events as examples of best practices in marketing communications.

Q: How are winners notified?

Awards within each category will be announced at the SMPS Awards Gala on April 4.

Q: How do I calculate ROI for a project or campaign?

Total Revenue (WHAT WE BILLED) – Total Cost (WHAT WE SPENT) divided by Total Cost and reflected as a percentage

$$\text{ROI} = \frac{\text{Total Revenue} - \text{Total Cost}}{\text{Total Cost}} \times 100$$

Return on investment (ROI) is a measure of value of the marketing expenditure. In its most simple terms it measures the financial outcome (positive or negative) related to a marketing investment. An investment can be an event, targeted campaign, website or any other initiative. To calculate ROI, you need to know two factors: total investment cost and revenue. Investment can include registration fees, media buy, time, printing, consultant or contractor fees, etc. Revenue is the value of the awarded opportunity related to those activities.
